

Carry-Family®

The Carry-Family® is a series of easy to carry, good ventilating stand up packs which can be used for a perfect presentation of potatoes and other fresh products on the shelves. NNZ has already won 5 international prizes, including the Worldstar – the Oscar of the packaging world – with this innovative packaging concept.

Carry-Fresh®, the original stand up pack is made from CLAF®. Carry-Net® and Carry-X® are derivatives of this made from knitted and extruded netting respectively. All stand up packs have both front and back labels which are easy to print. The Carry-Family® bags are shaped before filling on vertical form, fill and seal machines.

Carry-Family®

Carry-Fresh®
